ANNEX XII: DETAILED LIST OF CONDUCTED TRAINING COURSES DURING SEPTEMBER	60

Executive Summary

The report is an important source of information for Takamol activities development. Through this year October 2007 – September 2008, in this annual activity report, we bring together information from across the three Results – R1, R2 & R4 to chart Takamol - *HCI* progress across a range of important indicators of well performance. This allows us to monitor required/needed/expected changes and targets over time. This report shows us where we are doing well and alerts us to areas where we need to take action. We review our indicators each month/year to ensure we present the best needed transformation among the targeted participants being reflected on their quality of performance and understanding the intended professional message.

The information provided here enables all interested teams' members to access data that is vital to their future planning. This year we are proud to include huge number of consultant trainers among our roster that enrich Takamol-*HCI* planned/aimed goal and objectives.

Since September 2007, we have issued on monthly basis “Monthly Activity Reports” reflecting and illustrating the conducted training activities with all data and information including actual trainees from hospitals and PHCs in targeted governorates together with actual trainers at both the consultants and MOHP level. This information allows Team Leaders, Stakeholders and others working locally to monitor progress over time and compare their progress with other areas. It also helps the stakeholders to customize our services to the needs of specific areas and communities.

The annual report has four key aims:

- Ø to provide and monitor over time measures of well performance and quality of outcomes that complement existing indicators
- Ø to compare Results activities
- Ø to provide greater transparency to stakeholders and to contribute to better-informed public debate
- Ø to help identify key issues and areas where we need to take action, which can in turn help with planning and decision making.

The very close coordination among the counterparts has continued during all phases of all activities. The prompt response to the comments, recommendations, amendments, and improvement opportunities is being kept pro-active rather than reactive.

HCI Monitoring & Evaluation team continued the planned role in all governorates to ensure enhancing performance and improving quality. Evaluation was incorporated and participatory throughout the training activities to enhance the training methodology and to improve the outcome of training.

HCI Results Counterparts have continued follow-up of the Trainers in the different governorates for assessment and for on the spot improvement and coordination.

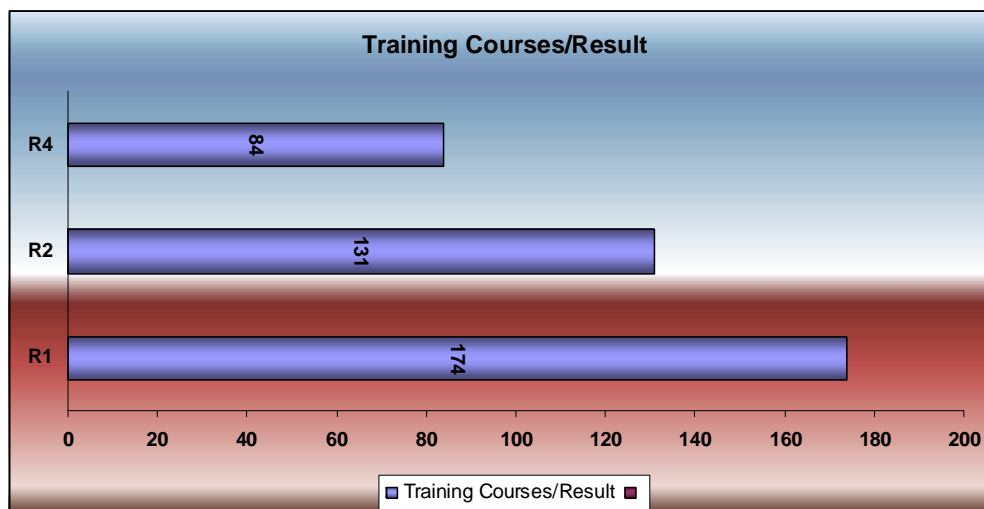

Upon completion of each training course, we had developed and provided comprehensive analytical training reports to the Team Leaders of R1, R2, and R4. Each report included the participants' list, trainers' list, analysis of participants' pre & post tests, training course evaluation analysis that reflects participants' views and feedback on different aspects of training (educational and administrative) in addition to their comments and recommendations, and documentary photos for R 1, R 2 & R4 training and videos for R 4 training, but by end of May it was agreed.

We handled all necessary logistics including trainers' transportation to different governorates, accommodation as needed, transportation of trainees to sites of practical sessions inside the governorate, providing training venues, producing training materials, and providing two coffee breaks a day.

Training Courses Conducted During the Annual Duration (Oct 2007 – Sept 2008)

This report covers 389 training courses conducted successfully during this duration (October 2007 – September 2008):

- § 174 training courses on PHC level under result 1.
- § 131 training courses on Hospital level under result 2.
- § 84 training courses on PHC level under result 2.

- In the **389 courses**, the total number of trainees under the three Results was **10,970 trainees**. The total number of training days was **1395 training days** which means that during the 389 courses a total of **30,209 participant training days** were accomplished.
- This means that *Takamol Team* succeeded to conduct daily, as an average of *8.6 training days per each working day* during the 12 months.

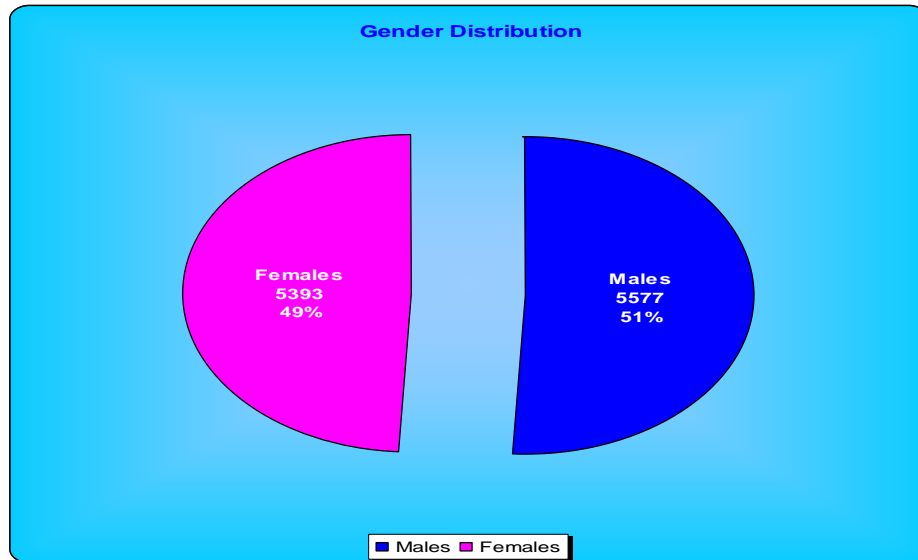

The following table summarizes the distribution of trainees per result and per gender:

Result	Males	Females	Total
Result 1	1802	2907	4709
Result 2	2208	1154	3362
Result 4	1567	1332	2899
Total	5577	5393	10,970

The total number of trainees on PHC level was 7608 trainees (3369 males & 4239 females).

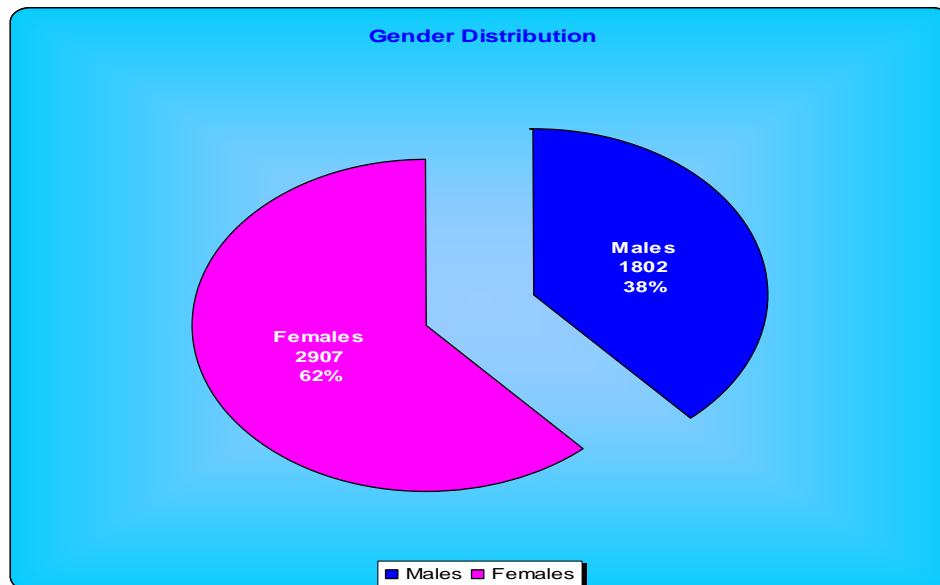

On hospitals level, the total number of trainees was 3362 trainees (2208 males & 1154 females).

It is noteworthy to mention that the gender ratio during this duration was in favor to female participants (5393) as compared to male participants (5577).

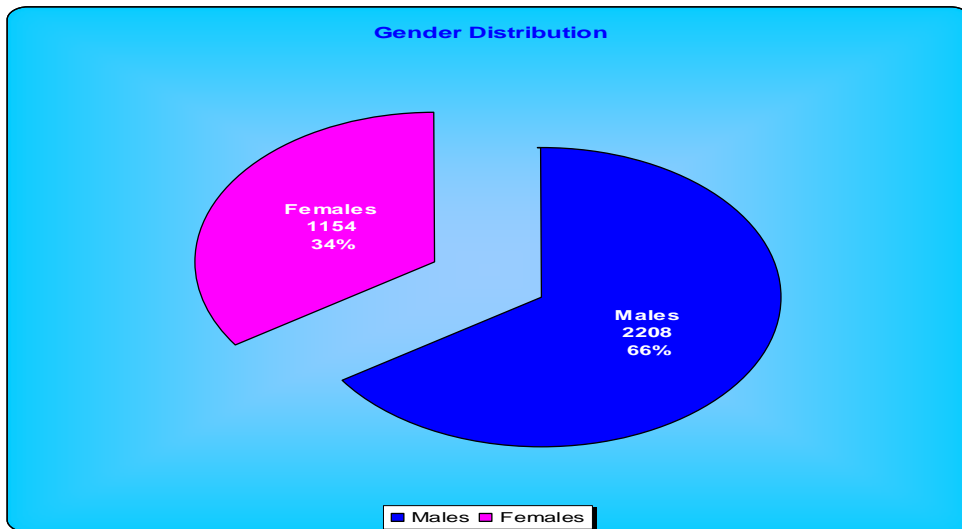

Gender Distribution According to the Activities

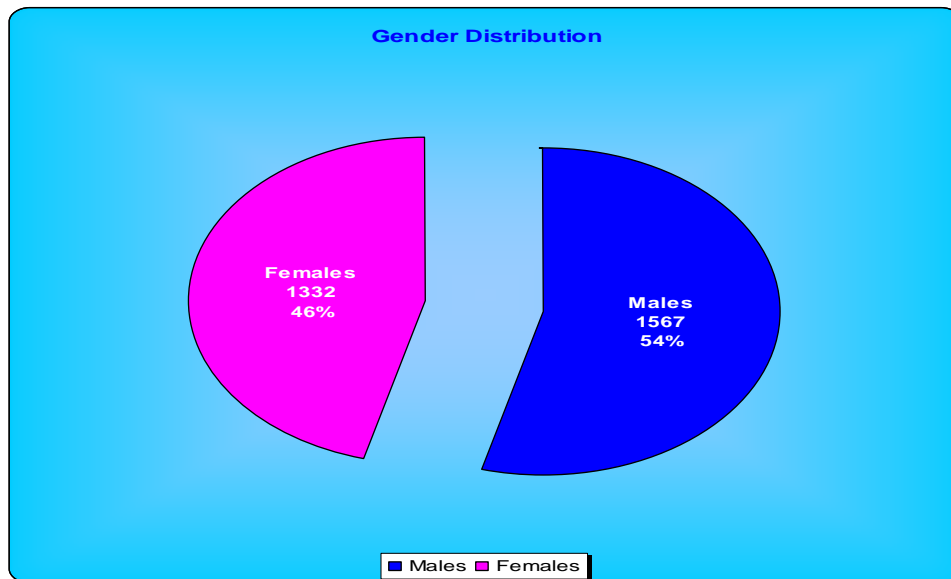

Result 1

Result 2

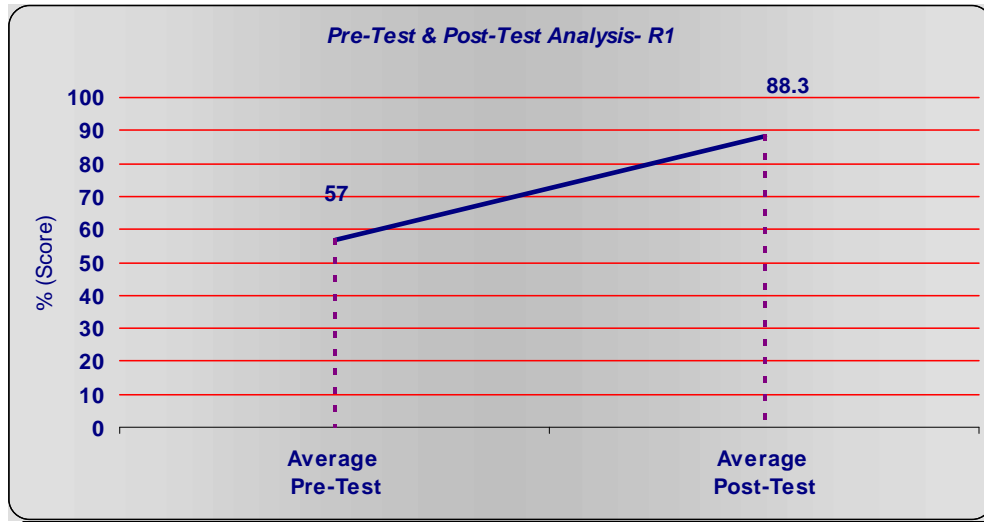

Result 4

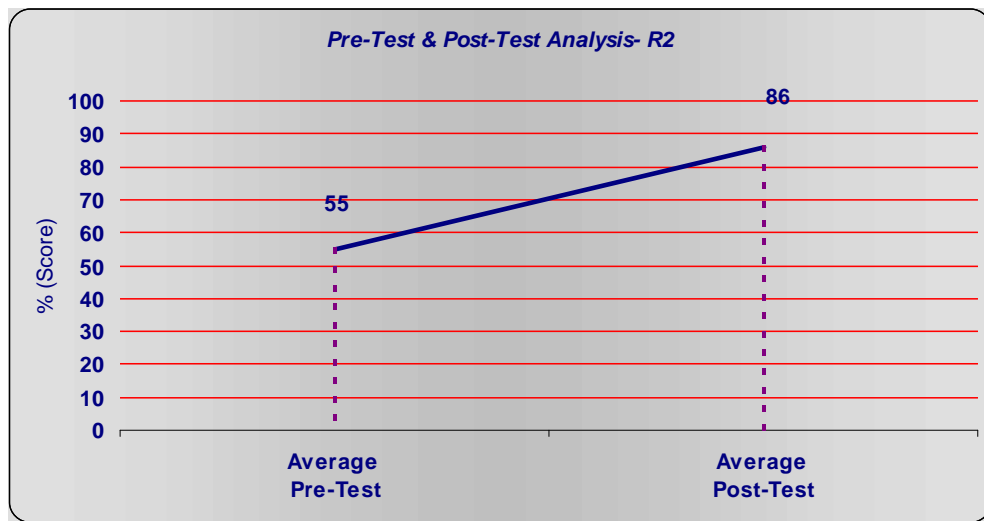

Pre-Post Test Analysis

The average score of pre-tests and post-tests of the 389 courses clarifies that the participants' knowledge was improved in a remarkable level. This confirms that the OJT will improve the skills and performance of the participants. The following graphs shows the average score of pre-test and post-test of the courses of each result and for the 389 courses:

Result 4

OVERALL

A detailed list that includes conducted training courses, dates, location, number of participants, gender, pre-test, post-test analysis and cost of training courses is attached as **Annexes I till XII.**

Trainers/Consultants' Level of Effort

In this section, we focus on trainers and consultants and the unsung heroes involved in all seen and hidden activities. During this year implementation (October 2007 – September 2008) *HCI* has successfully managed a huge pool of trainers, consultants, and permanent staff.

Due to expansion of activities and launching OJT program, Takamol roster of trainers has been enriched with new highly qualified Physicians and Nurses in all the specialties; OB/Gyn, Neonatology, Pediatrics, NICU, OR, Anesthesia, Infection Control, Laboratories, CSSD, Quality, and Management. Various activities of R1 & R4 are characterized with the remarkable participation of qualified and skilled MOHP trainers.

We believe that the quality of human resources management is to be measured in terms of the size of project activities, the proper utilization and allocation of resources, and the equal spread of workload across resources.

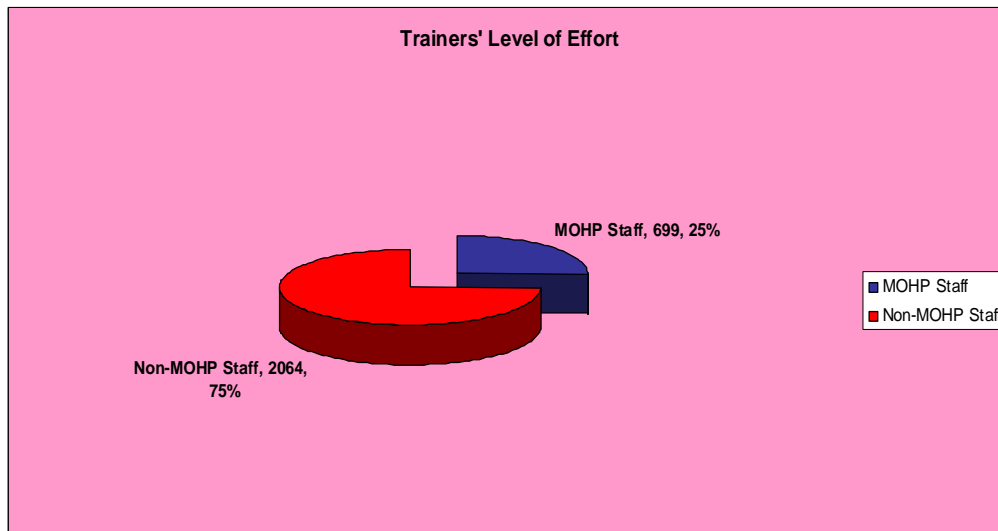

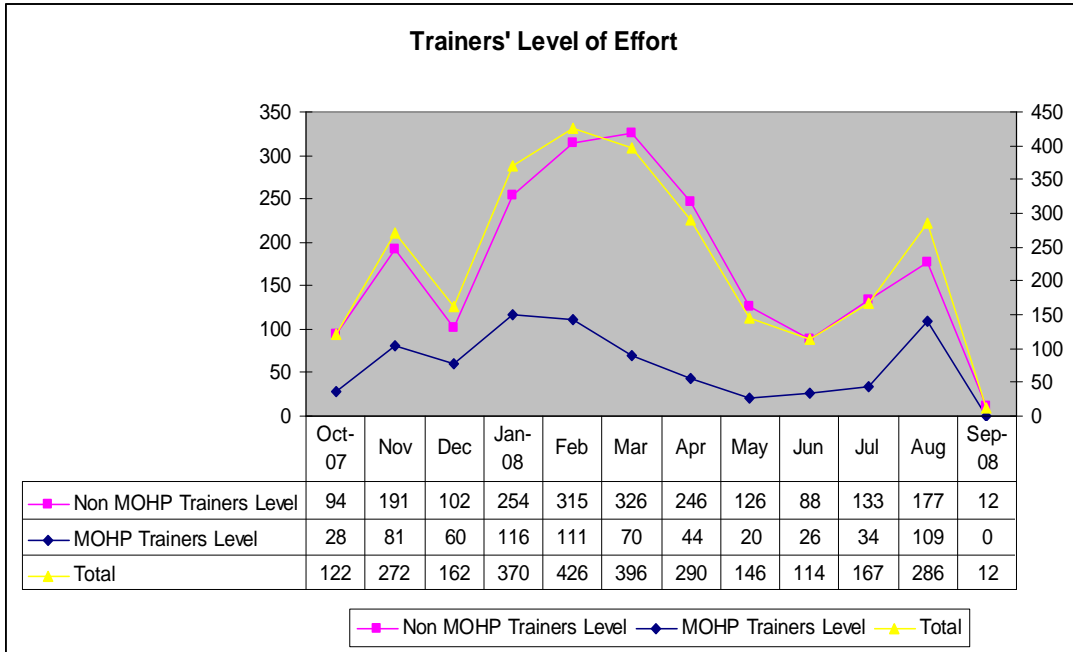

All this huge team of consultants/trainers/experts is being supported by the highly qualified and committed members of *HCI* Central and Local Teams; Technical Support Team, Administrative, and Financial super dedicated individuals that work as one heart and one team in close coordination and remarkable cooperation with Takamol counterparts, such teams offer technical, administrative, and managerial direction as well as training, monitoring and evaluation, and collaboration with field partners in the selected governorates.

The following table and graphs illustrate the level of effort and human resources workload during this year:

	Training Days		Total Training Level of Effort	Consultancy Days		Total Consultancy Level of Effort
	Non-MOHP	MOHP*		Non-MOHP	MOHP*	
October 07	94	28	122	184.5	0	184.5
November 07	191	81	272	178.75	30.5	209.25
December 07	102	60	162	246	1	247
January 08	254	116	370	391.5	6.5	398
February 08	315	111	426	336.62	7	343.62
March 08	326	70	396	319	6.5	325.5
April 08	246	44	290	261	16	277
May 08	126	20	146	185	9.5	194.5
June 08	88	26	114	89.5	10	99.5
July 08	133	34	167	35	12	47
August 08	177	109	286	37	18	55
September 08	12	-	12	22	9	31
Total Level of Effort	2064	699	2763	2285.87	126	2876.87

* Mainly in R1 & R4 activities

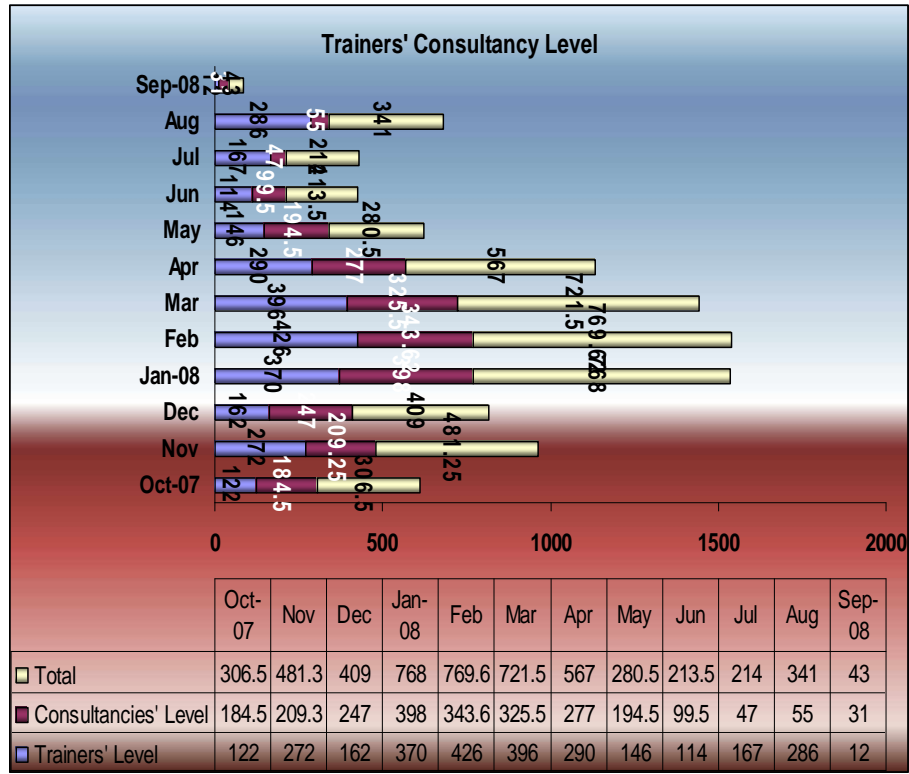

1. Training Level of Effort

2. Consultancy Level of Effort

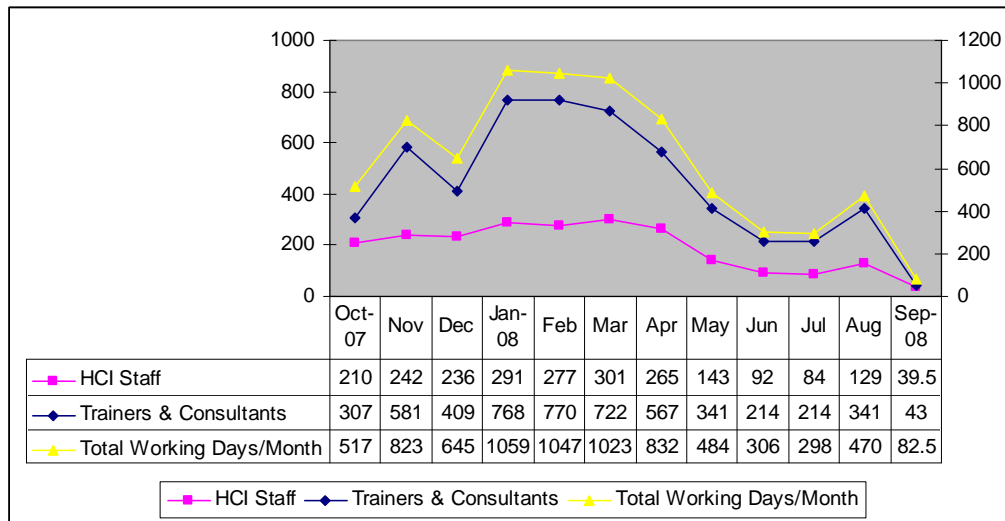

3. Total Level of Effort

4. Level of Effort of *HCI* Management & Support Team

The following table and graphs represent the remarkable efficiency of managing such pool of consultants and trainers if compared to the level of effort of *HCI* central and local teams

	<i>HCI</i> Staff	Trainers & Consultants	Total Working Days/ Month
October 2007	210	306.5	516.5
November	242	581.25	823.25
December	236	409	645
January 2008	291	768	1059
February	277	769.62	1046.62
March	301	721.5	1022.5
April	265	567	832
May	143	340.5	483.5
June	92	213.5	305.5
July	84	214	298
August	129	341	470
September 2008	39.5	43	82.5
Total	2309.5	5274.87	7584.37

5. R2-OJT Consultancy Days Vs R4-OJT Consultancy Days

	R2-OJT Consultancy Days (including OJT Visits, assessment visits, readiness visits, & meetings)	R4-OJT Consultancy Days (including OJT visits, SIF Visits, & meetings)
October 07		54.5
November		29.5
December 07		19
January 08	358.5	39
February	313.1	20
March	287.5	36
April	280.5	38
May	134	49.5
June	NA*	59
July		45
August		56
September 08		31
Total	1373.6	476.5

- R2-OJT started effective on January 2008.
- Starting June 2008, R2-OJT activities have been carried out by Takamol Borg EL-Zini
